COMMENTARIES
Hypertension and diabetes incidence: confounding factors
Arrigo F G Cicero and Sibel Ertel

Does subclinical thyroid dysfunction affect blood pressure?
Yukiko Nakata

Prevention of perinatal death with low-dose aspirin in developing countries
Emmanuele Bojold and Jean-Charles Pasquier

Normotension, blood pressure variability and early target organ damage
Luis M Rillope

Blood pressure variability and its implications in people of African descent
Ilenea J Ulas, Benedict C Anisiuba and Chinwuba K Ijoma

ORIGINAL ARTICLES
Ventricular repolarization before and after treatment in patients with secondary hypertension due to renal-artery stenosis and primary aldosteronism
Simona Maule, Chiara Bertello, Franco Rabbia, Alberto Milan, Paolo Mulatero, Valerita Milazzo, Grazia Papotti and Franco Veglio

The associations between G972R polymorphism of the IRS-1 gene, insulin resistance, salt sensitivity and nor-dipper hypertension
Joanna Dziwura, Agnieszka Brzczak-Kuleta, Tomasz Miaszowski, Joanna Ziemenak and Krystyna Widea

Factors associated with prevalence, awareness, treatment and control of hypertension in urban adults from 33 communities in China: the CHPSNE Study
Shen Tian, Guang-Hui Dong, Da Wang, Miao-Miao Liu, Qiao Lin, Xiu-Jun Meng, Li-Xia Xu, Hua Hou and Yu-Feng Ren

The effect of body mass index and fasting glucose on the relationship between blood pressure and incident diabetes mellitus: a 5-year follow-up study
Won Young Lee, Chang Hee Kwon, Eun Jung Rhee, Jeong Bae Park, Young Kwon Kim, Sook Young Woo, Seonwook Kim and Ki Chul Sung

Blood pressure levels in patients with subclinical thyroid dysfunction: a meta-analysis of cross-sectional data
Yunfei Cai, Yongkui Ren and JIngpu Shi

Increased risk of cardiovascular events and mortality among non-diabetic chronic kidney disease patients with hypertensive nephropathy: the Gonryo study
Masaki Nakayama, Toshinobu Sato, Mariko Miyazaki, Masato Matsushima, Hiroshi Sato, Yoshio Taguma and Sadayoshi Ito

Clinical outcome of subclinical Cushing's syndrome after surgical and conservative treatment
Itaru Akaza, Takanoobu Yoshimoto, Fumiko Iwashima, Chisato Nakayama, Masaru Dii, Hajime Izumiyama and Yukio Hirata

Prevention of gravidic endothelial hypertension by aspirin treatment administered from the 8th week of gestation
Abdelonah Bakhti and Daniel Vainman

Angiotensin II receptor blocker and long-acting calcium channel blocker combination therapy decreases urinary albumin excretion while maintaining glomerular filtration rate
Nasuki Nakagawa, Takayuki Fujino, Maki Kabara, Motoki Matsuki, Junko Chida, Kenjiro Ikiiuchi and Naoyuki Hasebe, the NICE-Combi Study Group

Blood pressure variability is significantly associated with ECG left ventricular mass in normotensive Africans:
The SABPA Study
Aletta E Schatte, Rudolph Schatte, Hugo W Huismen, Johannes M van Rooyen, Carla MT Fourie, Nicolaas T Malan and Lecne Malan

High-normal blood pressure is associated with microalbuminuria in the general population: the Weari study
Masanori Munakata, Satoshi Konno, Mihzo Ohshima, Tamon Keda, Yukio Miura and Sadayoshi Ito

Association between osteopontin promoter variants and diastolic dysfunction in hypertensive heart disease in the Japanese population
Hirofuki Nakayama, Hiroki Nagai, Kyotaka Matsumoto, Ryosuke Oguro, Ken Sugimoto, Kei Kamide, Mitsuuru Oishi, Tomochi Katsuwa, Hiroshi Okamoto, Makiko Maeda, Kazuo Kamaamura, Junichi Azuma, Hiromi Rakugi and Yasushi Fujii
